The mastic of Chios is a unique and valuable natural product that has been used for centuries for its medicinal and culinary properties. For hundreds of years, it has remained a point of reference in Hellenic culture. It is no coincidence that Christopher Columbus, on his way from Chios, exchanged mastic for gold. There are studies on its effect on the skin, teeth and stomach. It has proven antimicrobial, antibacterial and regenerative properties on the skin.

At IREMIA SPA, treatments are performed using MASTIC ORIGINS products made in Greece.

This new generation of cosmetics with mastic are certified Vegan and 100% organic. Featuring innovative ingredients in cosmetic treatments with proven results on the skin: Greek truffle olive oil, ouzo, organic hemp, spirulina, Chiot mandarin etc.
